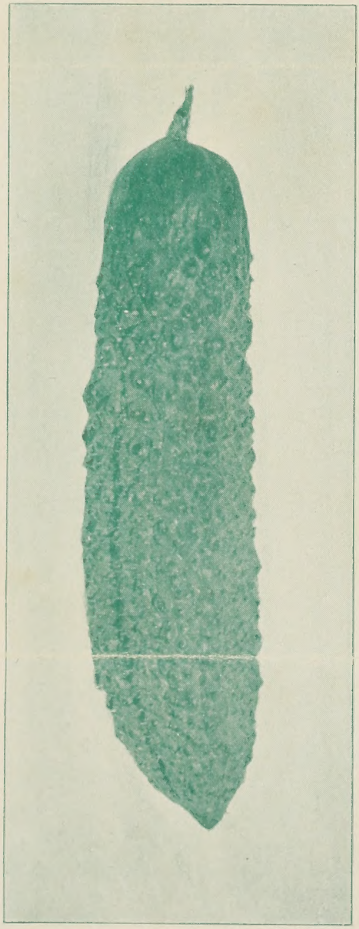
A New Cucumber



The Best Pickling Cucumber Known

WE offer our customers seed, to be grown during season of 1901, of what we honestly believe to be the best pickling cucumber ever produced.

This variety was originated by us, and the entire existing stock of seed is in our possession.

The variety is of the hardy, white spine type, is a rapid, strong and vigorous grower and very prolific in fruit.

The pickles differ from all other hardy sorts in being thickly set with fine spines over the entire surface, except the extreme stem-end; and during the whole period of growth, from the time they first set until fully grown, the form is exceptionally straight and symmetrical, thus being as choice as a slicing variety as it is for pickles.

The flesh is firm but very crisp and tender at all stages.

We offer it in full confidence that it will please our customers in every particular.

We offer seed under usual contract conditions, i. e.: in event of short crops orders to be filled pro rata. In case yield falls below 75 per cent. of orders, same will be cancelled on request.

PRICES:

25 pounds,	*$25.00*
50 pounds,	*45.00*
